

Prerequisites

Check Stock Availability

Use

This activity is used to check the availability of stocks.

Procedure

1. Access the transaction using the following navigation option:

SAP menu	<i>Logistics → Materials Management → Physical Inventory → Environment → Stock Overview</i>
Transaction code	MMBE

2. On the **Stock Overview: Company Code/Plant/Storage Location/Batch Screen**, make the following entries:

Field name	User action and values	Comment
<i>Material</i>		Alphanumeric key identifying the material
<i>Plant</i>		Key uniquely identifying a plant
<i>Storage Location</i>	Optional.	Storage location at which the material is stored.

Stock Overview: Company Code/Plant/Storage Location/Batch

The screenshot shows the SAP Stock Overview screen. At the top, there is a title bar with a search icon. Below it, a section titled "Database selections" contains four rows of input fields. The "Material" field is populated with "RM088-00000021" and has a search icon to its right. The "Plant" field is empty, followed by "to" and another empty field. The "Storage location" field is empty, followed by "to" and another empty field. The "Batch" field is empty, followed by "to" and another empty field. To the right of these fields are three vertical arrow buttons (up, down, and a double arrow).

3. Click  icon to execute.

4. In the **Stock Overview: Basic List**, check on the stock level of the material to be reserved.

The column **Unrestricted Use** shows the stock available for use. This column will be your reference in determining if there are sufficient stocks for usage.

The column **Qual. Inspection** shows stock blocked for inspection.

The column **Reserved** shows stock currently reserved.

The column **Recpt Reservation** shows stock of confirmed reservation.

The column **On-Order Stock** shows number of stock on order.
